

## Sixteen Year Old Blood Donor Parental Consent Form

Your child has expressed interest in donating blood at an upcoming blood drive with the Rock River Valley Blood Center. We hope that you support and encourage your child's decision to donate blood. By becoming a blood donor your child is showing great civic responsibility, maturity and a sense of community pride. Through their blood donation, your child has the potential to save up to 3 lives!

Blood donation is a safe procedure using only single use sterile supplies. The possibility of a slight reaction such as becoming light-headed, dizziness, fainting or slight bruising may occur. In the rare event that your child may experience any of these, you will be notified. For further information regarding the blood donation procedure please go to the website – [www.rrvbc.org](http://www.rrvbc.org).

Your child's blood will be tested for all FDA required tests. Please understand that both you and your child will be notified if your child receives a positive test result(s) and that your child may be contacted for follow-up testing.

State law requires a written parental consent. Sixteen-year-old donors will not be permitted to give blood without a signed parental consent form. Please complete the parental consent form provided at the bottom of this page. Only forms signed by a parent or guardian will be accepted at the time of donation. A signed consent will be required for each donation until the donor reaches the age of 17.

If you have any questions regarding your child's decision, please contact the Blood Center at 815/965-8751.

**Please fill out the bottom half of this form and return only the bottom portion.  
Please keep the top portion for your records.**

---

I give permission/consent for \_\_\_\_\_, to make a voluntary donation of blood to the Rock River Valley Blood Center.

I understand that both my child and I will be notified if my child receives a positive test result(s) and that my child may be contacted for follow-up testing.
